Commissioning brief instructions: In-Home bus

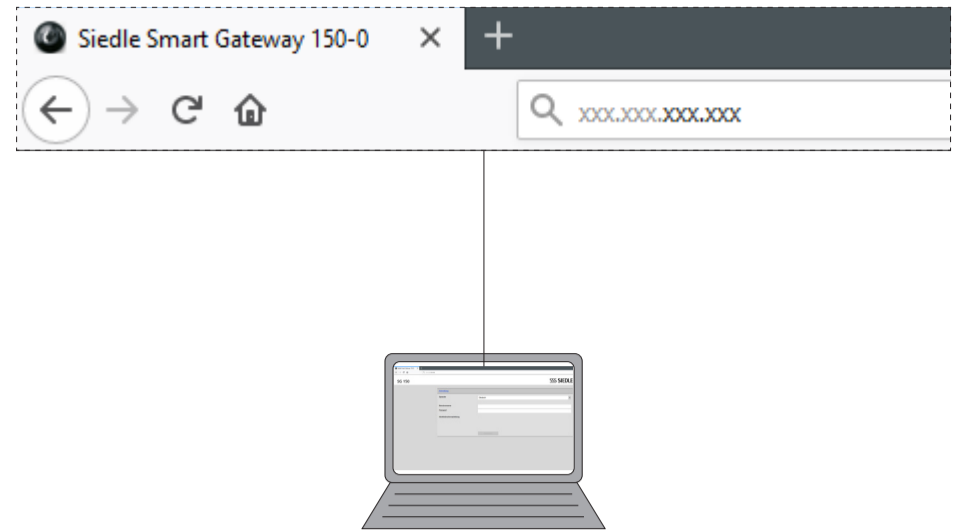

Commissioning brief instructions: Siedle App

7 Determine the IP address of the Smart Gateway SG 150-... in the network (router)

8 Call up the determined IP address of the SG 150-... in the browser

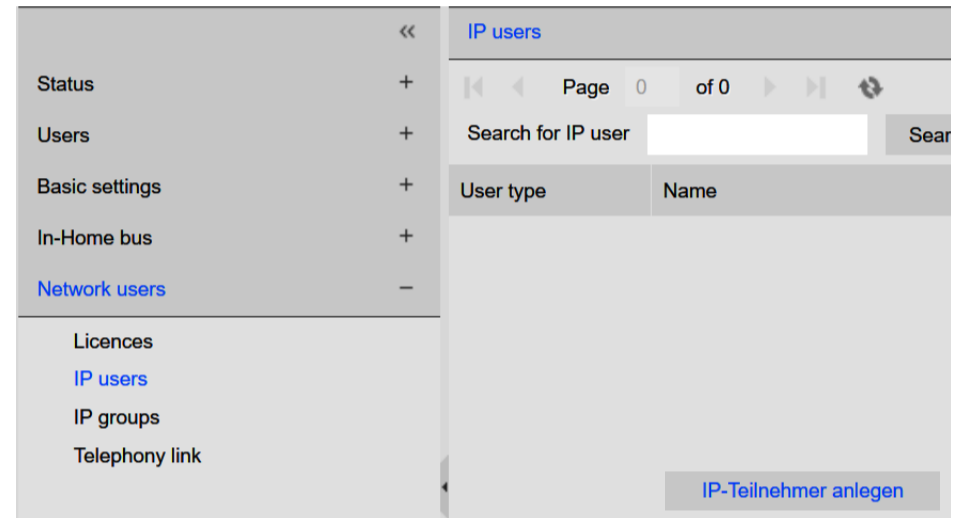

9 Login

The screenshot shows the login page for the Siedle Smart Gateway 150-0. The page includes a section for 'Assign new password' with the instruction 'Create a new password that meets the requirements.' Below this, there are input fields for 'Language' (set to English), 'New password', and 'Repeat new password'. There is also a 'Commissioning instruction' field. A 'Submit password' button is located at the bottom of the form.

Issue a new password which complies with the stipulations.

10 Under "IP user", "Create an IP user"

Menu path: Network user > IP user

11 Select "Siedle App", fill out the data and click "Next"

The screenshot shows the 'IP users' form with the 'Siedle App' user type selected. The form includes fields for 'User type *' (Siedle App), 'Name *' (Julia), 'Direct dial *' (*2 11), and 'Bus address reference' (Virtueller Teilnehmer [01 01]). The 'App setup *' section shows 'Step 1: Setup app participant' and 'Step 2: Scan QR-code'. Below the steps, there is a note: 'Enter name, callnumber and, if desired, a bus address reference. Please note that an internet connection is required in order to use the app. Please note that an internet connection is required in order to use the app until the code can be displayed.'

Name: Freely selectable name for the user (e.g. Julia)

Bus address reference: Connection between the Siedle App and the door station (e.g. [01 ...])

12 Install the Siedle App on the user's smartphone

13 Scan the QR code with the Siedle App

The screenshot shows the 'IP users' form with the QR code for the user. The QR code is labeled 'Individual QR code of the user'. The 'App setup *' section shows 'Step 1: Setup app participant' and 'Step 2: Scan QR-code'. Below the steps, there is a note: 'Scan the shown QR code with your Siedle App. This code expires on 3.12.2019.'

If the user cannot be reached, print the QR code as a PDF and/or send it to the user for later.

14 Check app functions
