## Product description

---

Access application licence "Access licence for non-Siedle IP camera" for the operation of an IP camera on the Access Professional system. A licence is needed for each IP camera.

To operate an IP camera, Access Professional from version 7.0 is required. It may only be possible to use certain performance features of the IP camera integration on certain types of end device. The available performance features of the IP camera integration depend on the Access system version:

- Advanced Concierge video functions (from Access Professional 7.0 for Client software ASC...): Additional video functionality for the Concierge software at the reception.
- Camera observation (from Access Professional 7.0 for Video indoor call stations AHTV..., AHFV..., AVP... as well as Client software ASC... and ASHT...): Manual camera selection from available IP cameras.
- Camera scan (from Access Professional 7.0 for Client software ASC...): Automatic camera selection from available IP cameras.
